Cooling Technology in Vehicle

Head Unit

AG4010、AB4510

Amplifier

AG4010、AB6018

LED Head Lights

AD4020GP、AG4020、AG5015

Customized thermal modules

Audio

AG4010、AB4510

ADAS

AG4020GP

Wireless Charger

AB4010

Fragrance

AB6015、AD4010

PM2.5 Detector

AG2010

Cup Holder

AB6025

Seat Cushion

AG5015

Bus Air Condition

AG6025

Driver Heating System

AG6025

Bus

High Speed Rail (THSR)

Truck

Vehicle-to-everything (V2X)

Electric scooters

Battery module system

AB7530、AB7630

Charging pile / Station

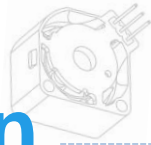

AD4028、AS12038、AB9733

Converter

AD4020GP

Axial Fan

ADDA is committed to the professional design and manufacture of diverse cooling fans and modules, providing innovative and efficient cooling solutions. Follow the international vehicle regulations, quality system verification and control; Adda can meet the strict requirements of the smart vehicle safety system.

STABLE & VENTILATION

IATF 16949 CERTIFICATION

- APQP / FEMA / MSA / PPAP / SPC CAPABLE

FOLLOW VDA 6.3 / VDA 6.5 GUIDELINES

AEC-Q100 / Q101 / Q200 CERTIFICATION

ANSI/ESD S20.20 CERTIFICATION

AUTOMOTIVE DEDICATED LINE

CONTINUOUS IMPROVEMENT TEAM
